

Managing Files through File System In Pharo

Ruthless Theory

4 Classes :

FileSystem

- Basically Factory To create File Systems

FileReference

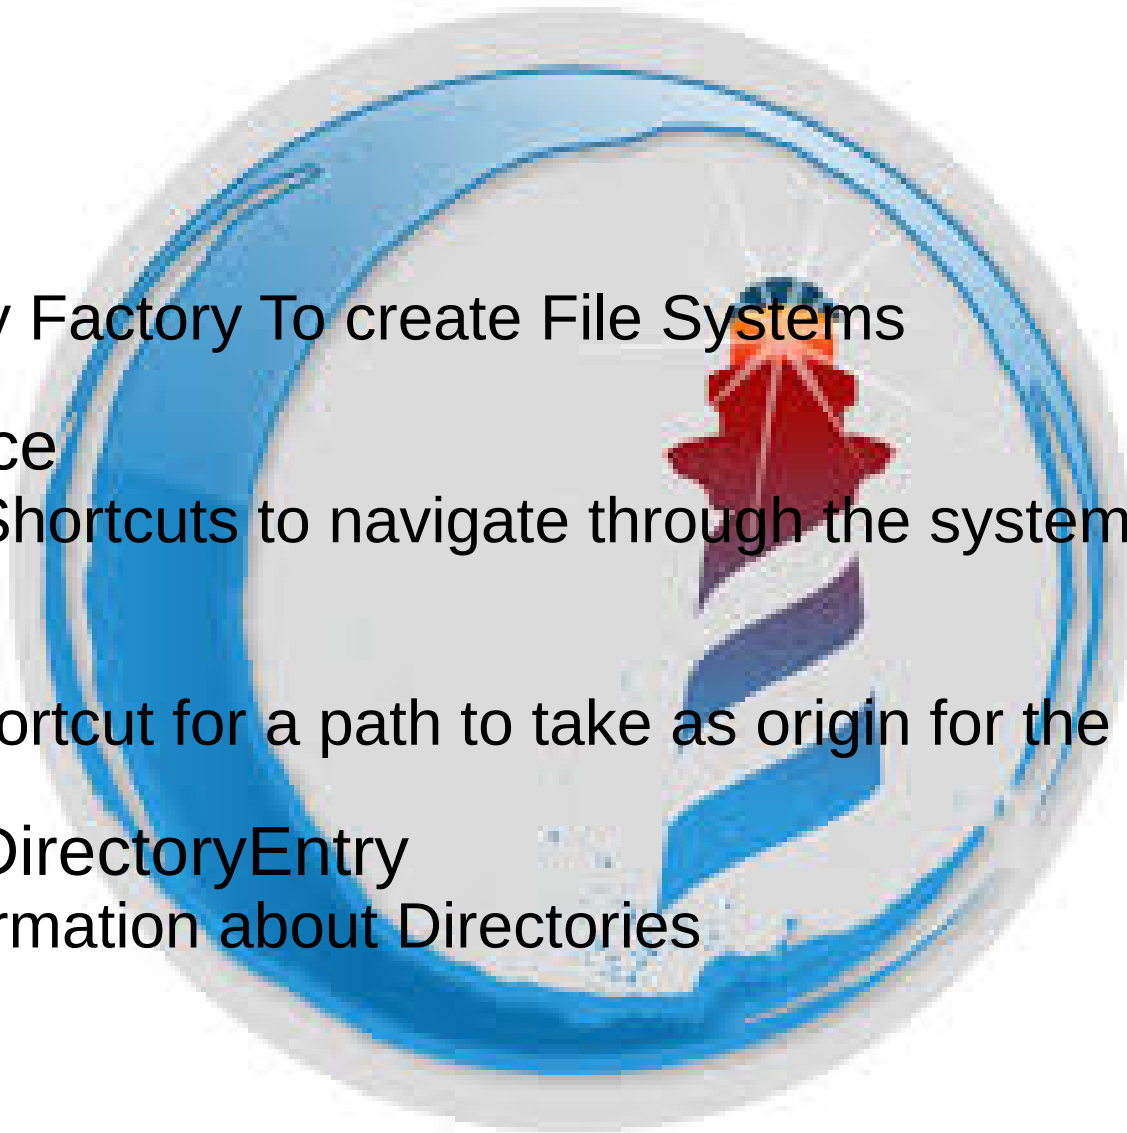

- Create Shortcuts to navigate through the system

FileLocator

- Set a shortcut for a path to take as origin for the current prog

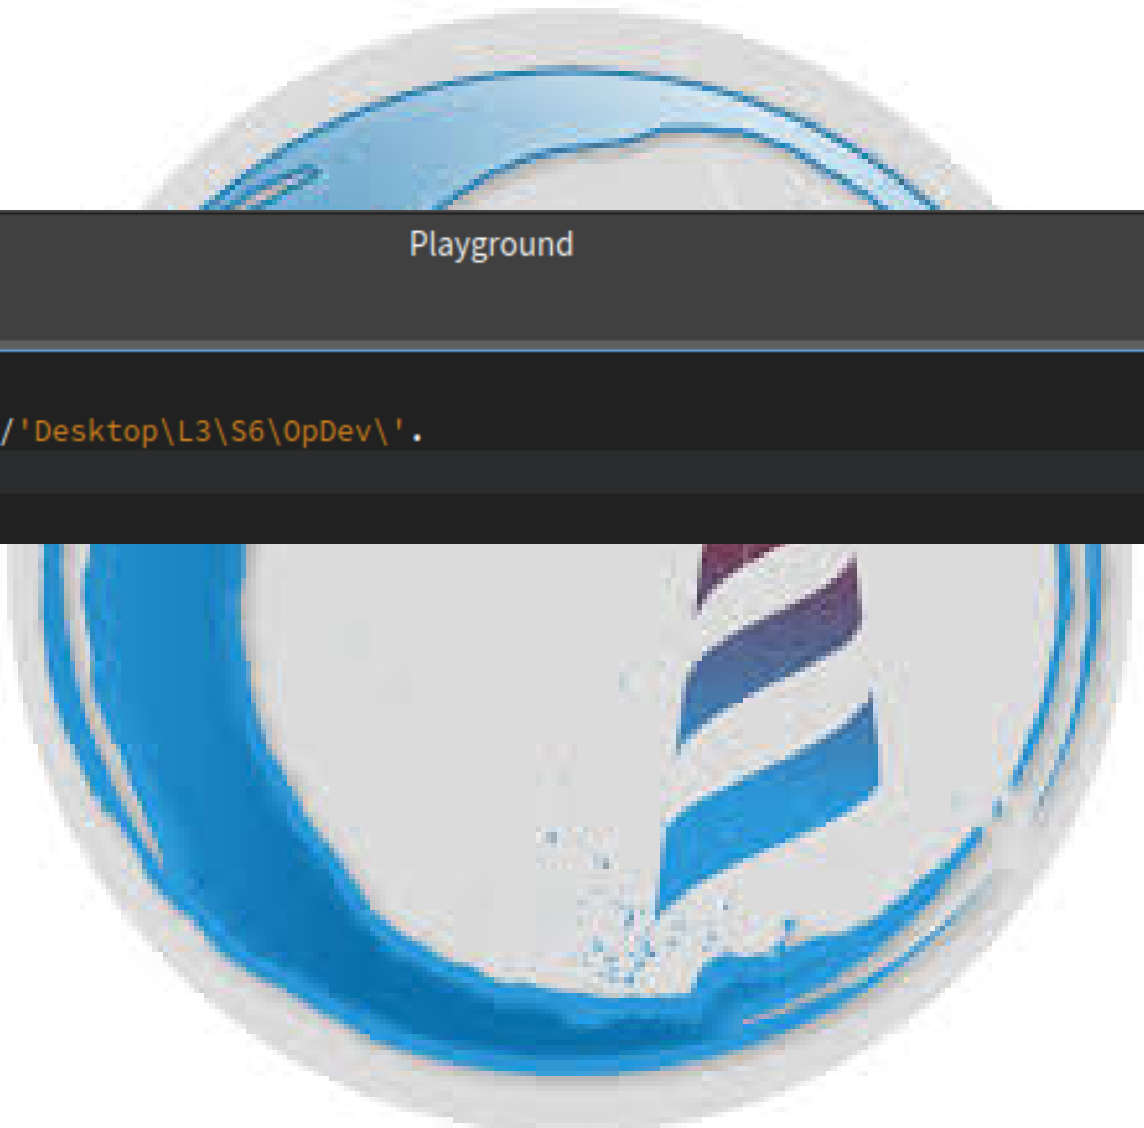

FileSystemDirectoryEntry

- Get Information about Directories

Let's Get It Started

```
Playground
Page
|home|
home := FileLocator home /'Desktop\L3\S6\OpDev\'.
home children.
